

PLANET WAVES™

CTM

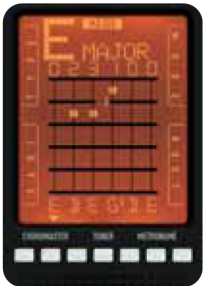

Chordmaster · Tuner · Metronome

The Planet Waves C.T.M. takes the highly successful Chordmaster and adds to it a chromatic tuner and metronome. The Chordmaster section provides you with the most comprehensive library of over 7000 chords all in the palm of your hand. The easy navigation allows you to find any chord simply and quickly. The C.T.M. even has a "lefty mode" for those often ignored left handed guitarists. Combining this with a fully-chromatic tuner and Metronome makes the C.T.M. your all in one essential practice/reference tool.

The quintessential guitar chord library and practice tool.

- > More than 7000 chords
- > Includes left- and right-handed diagrams
- > Built in chromatic tuner, metronome and backlight
