

NS Capo™

The NS Capo is the product of an ongoing collaboration between famed product designer Ned Steinberger and J. D'Addario & Company. It employs a sleek, ultra-light design for fast, accurate one-hand positioning on the guitar's neck. Just turn the smooth, tactile dial to eliminate string buzzing and enjoy perfect, in-tune performance. Lightweight aluminum adds virtually no weight to the guitar's neck when in use.

Capo features:

- > Ultra-light aerospace-grade aluminum
- > One-hand operation
- > Fast micrometer screw that assures perfect pressure for buzz-free, in-tune performance at every fret
- > A patent-pending Ned Steinberger design
- > Designed for 6- or 12-string guitars
- > Also available in silver

Provides buzz-free, even pressure across the neck.

Low-profile design does not interfere with playing.
